

Memories of The Denes, Darlington Celebrating this beautiful urban resource as told by those who know and love The Denes and

A History of The Denes, Darlington by **Chris Lloyd**,

both published in 2012

These companion volumes tell the history and celebrate the memories of people who used The Denes for play, walking and other leisure activities from its earliest days to recent times. The books are an easy very readable mix of history, clear informative maps, photographs and lively memories and stories.

There is detailed information about the Denes street names at the back of Chris Lloyd's book with sections on Late-Victorian Statesmen and Canadian streets, and a wonderful fold out plan of the different Denes such as Sheddy Dene, Footie Dene and Paddy Dene in the people's stories volume to which the contributors refer.
