## Oil Paintings in Public Ownership in County Durham

Published in 2008 this is one of a series of publications covering the whole of the United Kingdom with the intention of it being a record of the nation's collection of oil, tempera and acrylic paintings in public ownership.

The County Durham volume includes those paintings held here in the Centre for Local Studies and in the Darlington Borough Art Collection and therefore is a quick reference guide to some of the items held in Darlington and further afield. Any catalogue has its limitations and of course paintings have been added to the Local Studies collection since this date and so do not appear in the catalogue. Sadly the many watercolours and works in other media do not appear either.

Several other volumes of the Public Catalogue Foundation covering other parts of the UK are available in the Reference Library or you can search the full catalogue online at [artuk.org](http://artuk.org)
